

Greetings,

The economics of crop production has entered a new era. This seminar is an opportunity to learn about new winter wheat research work that help optimize yields and profitability per acre. Plan to attend the 2008 Winter Wheat Management seminar.

Sincerely,

Michael J. Ballweg
Agriculture Agent -Crops & Soils
Sheboygan County UW-Extension

About the Speakers

Shawn Conley

Shawn Conley is the UW-Extension Small Grains & Soybean Specialist at UW-Madison. Shawn completed his PhD at UW-Madison, and had previously served as Indiana's Soybean & Small Grains Specialist at Purdue University. Shawn is a Wisconsin native from Green County.

Paul D. Esker

Paul Esker is the UW-Extension Field Crops Plant Pathologist at UW-Madison. Paul completed his PhD at Iowa State, and has studied soybean rust in Brazil before coming to Wisconsin. Paul is a Wisconsin native from Marathon County.
